

5th German-Japanese Symposium on Classification

11.09. - 13.09.2016, Schloss Reisenburg (Günzburg)

2016-09-11		2016-09-12	2016-09-13
	09:00 09:25	Tadashi Imaizumi Model-based Clustering of A Sparse Similarity Matrix	Adalbert Wilhelm tba
	09:25 09:50	Akinori Okada, Hiroyuki Tsurumi Estimating Market Share of New Brand by Analyzing Brand Switching Matrix Using Asymmetric Multidimensional Scaling	Masahiro Mizuta Analysis of environmental data with SDA and FDA
	09:50 10:15	Ludwig Lausser Data Shattering	Andreas Geyer-Schulz Do Industrial End-Consumer Product Configurators Use Rational Pricing? A Case Study.
	10:15 10:45	Break	Break
	10:45 11:10	Berthold Lausen Ensemble Classification and Clustering	Hans-Hermann Bock (?) tba
	11:10 11:35	Sadaaki Miyamoto Ward Linkage Method for Non-positive Definite Similarity Matrix	Kei Kurakawa, Yasumasa Baba Tensor based relational learning for the author name disambiguation
	11:35 12:00	Atsuhiko Nakayama Analysis of trends of topics and influences of temporal variation on social media	Jun Tsuchida, Hiroshi Yadohisa Majorization algorithm for dominance point model
	12:00 13:30	Lunch	Lunch
	13:30 13:55	Fumitake Sakaori Fully Bayesian Soft Impute for Matrix Completion	Hans-Joachim Mucha tba
	13:55 14:20	Johann Kraus Multi-objective clustering for collecting cluster alternatives	
	14:20 14:50	Break	Break
	14:50 15:15	Claus Weihs tba	
	15:15 15:40	Yoshiro Yamamoto, Sanetoshi Yamada Visualization of cross tabulation using association plot	
	15:40 18:00	Social Program Ulm	Departure
Welcome Reception Get Together	18:00 21:00
